PROFILE

Hello, I'm John, I'm very passionate about IT & I love discovering new Tech. I can quickly learn a new skill, and adapt in different situation needed.

WORK EXPERIENCE

Frontend Developer Intern
Climact | Brussels   11/2022 - 02/2023

Was responsible for the migration of an old code base to a newer code base of the tasks included, but were not limited to:

- Migration to a newer frontend framework, react 18.
- Migration to a newer data chart system. From Apex Chart to Echart.
- Updated the state management system redux to redux toolkit.
- Help create unique reusable function to handle these data and visualize it into charts.

Technologies used: react, redux toolkit, echarts
